

# Introducing Conversations

by SchoolInfo

## Conversations by SchoolInfo is 2-way digital messaging for schools done right.

Conversations brings together the ease and familiarity of a text message and other popular instant and group messaging platforms. All of this with the administrative oversight and controls that are necessary in today's digital age. With Conversations, teachers can instantly chat directly with individual students and parents or easily create groups to share class documents, materials and assignments, answer questions, inspire engagement and more!

### Other benefits to one of our most popular products include:

- Attachment sharing among students, teachers, and families
- Ability to create private groups for athletics, group projects, and more
  - Use conversations on the dashboard or in your app
- Administrators may control access to Conversations for individual users
